Dear Parent/Guardian

HPV Immunisations

The HPV programme consists of 2 doses. If you consented for your daughter to be part of this programme and she received her 1st dose during Year 8, her 2nd dose will now be offered during Year 9. There is no further action required on your part as we already have a signed consent form from her previous 1st dose.

If your daughter did not receive her 1st dose of HPV in Year 8 and you wish her to have this, it can still be offered.

If you have any queries or require further information please contact the Immunisation Team on 01772 644499.

Yours faithfully

Immunisation Team

The Immunisation team will
be in school on:

14 JUN 2017
